WORK EXPERIENCE

Front-End Web Developer Intern | MASS IT Solutions LLP, Pune

06 Jan, 2025 – 14 Feb, 2025

- Assisted in the design, development and maintenance of responsive web applications using HTML, CSS and JavaScript.
- Assisted in the development of an interactive hotel website.
- Improved website performance by optimizing code and implementing lazy loading.
- Debugged and fixed cross-browser compatibility issues.

PROJECTS

Real Estate Market Analytics & Sales Tracking System | [LINK](#)

- **Database Design:** Developed a normalized 3-table relational database schema (Agents, Properties, Transactions) ensuring strict data integrity and structure.
- **Analytical Reporting:** Wrote SQL queries using multi-table JOINS and GROUP BY aggregations to generate agent leaderboards and track revenue trends.
- **Troubleshooting & Logic:** Applied date functions and conditional CASE statements to isolate properties active for over 90 days and output pricing recommendations.

Hospital Database & Patient Record Management System | [LINK](#)

- **Database Design:** Developed a relational schema tracking Patients, Doctors, and Appointments using primary and foreign keys to ensure data integrity.
- **Analytical Reporting:** Wrote SQL queries using aggregations and JOINS to track doctor availability, monthly patient volume, and department workloads.
- **Troubleshooting & Logic:** Applied conditional CASE statements and date functions to identify appointment scheduling conflicts and flag long-waiting patients.
